

*Office Memorandum* • UNITED STATES GOVERNMENT

TO : Mr. Houston

DATE: 24 November 1953

FROM : [REDACTED] 25X1A9a  
FOIAb6

SUBJECT: Complaint of [REDACTED] Concerning Agency Vehicle

25X1A9a 1. Yesterday afternoon I talked with [REDACTED] concerning this matter. He stated that during the weekend of 6 November, eight of his people came in every morning for the Agency indoctrination course.

2. This morning I talked to [REDACTED] 25X1A9a 25X1A9a 25X1A9a the driver of the vehicle. She turned in a statement this morning to [REDACTED] which she understands is to be forwarded to [REDACTED]. She stated that the incident took place between Glebe Road and the turn-off to the 14th Street Bridge in back of Fort Myer. The regularly-assigned driver was off that day and since she formerly lived in Washington and was familiar with the city, she was requested to drive the vehicle into town. She had passed a bus that was two or three feet off the road and looking back saw an opening in the right lane that would enable her to cross over into the proper lane to continue into town. The other car had apparently passed between the right lane and the bus and as she crossed over it was very close to her rear bumper. Neither she nor any of the other passengers saw it go off the road on to the shoulder and stated that if it did, it couldn't have been off on the shoulder for more than eight or ten feet. One of the passengers in the rear commented that "that was close!!" However, none of them thought very much about it at that time. [REDACTED] stated that it was the usual rush-hour situation at that point in the traffic.
